

We had a surprising turn out at the Bakers sponsored Michigan Fiero Club Cruise event on Sunday July 21st. While this event wasn't on our schedule and we only found out about it at the 11th hour, we kind of made lemonade out of lemons. We ended up getting (8) cars at the event many of whom were younger folks that said they had either heard about the event through Facebook or the e-mail that was sent out the evening before the event.

When Kaye & I got to Bakers the weather looked very ominous and when I asked them where they wanted us to park they said the cruise had been cancelled earlier that morning due to threat of weather. I said, "well we are here now, so we will see how many from our club show up". (As it turned out it was a great day.) They reserved a spot for us behind the restaurant and once we drove to the area we were surprised to see two other Fiero's already waiting for us there.

Three Fieros belonged to younger members and a couple of them said this was their first Club event. The three younger members were: Ryan Rozek with a red 1984 2M4 4 speed manual, Johnathan Afek with a silver 1988 2M4 automatic & Dillon Knight with a 1987 blue quad formula with a conversion kit to make a notch back look like a GT while retaining the original tail lights. Other members in attendance were Mike and Pam Maier and Don Connors.

We were also approached by a younger gentleman by the name of Chris Ashworth who is an automotive videographer. He said he had created a YOUTUBE video called "A Tribute to Pop Up Headlights" and asked us if we could all pop up our headlights in unison while he videoed us. We agreed and he said our cars would appear on YOUTUBE in early August, so if you want to see us go to [YOUTUBE.COM/DTROCKSTAR1](https://www.youtube.com/dtrockstar1) and look for his tribute to pop up headlights under Car Documentaries.
