

# 2018 Fieros in the Village Car Show

June 30th, 2018 marked "Fieros In The Village," our annual car show in Canterbury Village!

It was a pretty sunny and hot day, and if it was your first time at this show, you had to follow good directions to get to the back of the village and find us, but with the Summer sun, that location was a fantastic idea. We were up in the hilly area of the village, right by the shops, and we had plenty of trees for shade. There was even a hint of cool breeze. There were tons of Fieros lined up along the driveway, and plenty of MFC members around to discuss our favorite cars!

This coming year is the 25th anniversary of the MI Fiero club (Yes it's been that long), and that means we have hosted a LOT of shows over the years. The locations have changed, the quantity of cars has changed, the members have changed, the cars have changed - from bone stock, to modified, to de-modified, to back to restored, but even after all these years there is still something new and exciting to see - be it custom wheels, or a new shade or color of paint job, or an entire motor swap that's new and different. That's the great part about Fieros, everyone puts in so many of their own custom touches.

I won't point out my favorites, but there really were some gorgeous cars present. I could take snippets of so many cars, from the unique refinished interiors, to the new LED headlights, to some of the incredible motors swaps, to some of the beautiful restorations and design my "perfect" Fiero. If customization isn't your "thing," and you like Fieros looking as original as possible, there was a coupe there with an engine that looked like it just came down the assembly line. I could see factory markings still on it.

After a bit of browsing, chatting, cleaning, and fun, the cars were judged by our MFC judges and the following awards were given out:

Best work in progress:	Kristina Kahn
Best modified engine:	Adam Powell
Best notch back coupe:	Lou Oles
Best fast back GT:	Tim Rivet
Highest mileage:	Brian Welch
Best Aero notchback:	Paul Dagenais
Longest distance:	Adam Powell

## 2018 Fieros in the Village Car Show

Best custom Wheels:	Tim Rivet
Best Paint:	Jon Lowe
People's' Choice:	Jon Lowe

In addition to the awards, we gave out four \$25 gift certificates from The Fiero Store, plenty of 35th Anniversary swag, a generous part cleaning discount certificate from American Metal Cleaning Inc. and two rust cleaning packages from Work Shop Hero ([workshophero.com](http://workshophero.com)).

Everyone also got one or more door prizes for just entering.

We want to thank everyone that came and welcome you to join us next year. How about we let the pictures speak for themselves ...
